

MILSET EXPO-SCIENCE LATIN AMERICA

ESI AMLAT 2024

NOVEMBER 25 TO 29, 2024

ESI AMLAT 2024 MASCOT

The vicuña (*Lama vicugna*)

Welcome to Peru, friends! I am a species well-known for the quality and texture of my fiber, which is the finest among camelids and all natural animal fibers. My fur is white on the chest and belly, and the rest of my body is light brown. I am a very territorial gregarious species.

My preferred food is grasses and non-woody herbs. I live in the puna and the high Andean region, roaming open areas above 3,300 meters above sea level, especially in bofedales or grasslands. You can find me in Peru, Chile, Bolivia, and Argentina.

MILSET EXPO-SCIENCE LATIN AMERICA

The MILSET Expo-Science Latin America (ESI AMLAT 2024) will take place from November 25 to 29, 2024, at the “Club de la Unión” – Plaza de Armas in Lima, Peru. ESI AMLAT 2024 will be a prominent event bringing together young scientists, educators, and professionals from diverse disciplines across Latin America and the world. During the event, innovative projects will be presented, knowledge will be shared, and scientific collaboration among participants will be fostered. This executive report will provide an overview of the event's highlights, as well as the conclusions and recommendations derived from the experience. It is a regional event for the promotion of youth science, communication, and networking, characterized by interactivity, commitment, and a focus on motivation and cooperation. Young participants attend as ambassadors of their countries' youth science programs.

MILSET EXPO-SCIENCE LATIN AMERICA

The goal of the event is to provide a space where young people from around the world can share the practices and results of their research in STEAM (science, technology, engineering, arts, and mathematics) with a multicultural and multidisciplinary audience.

We will have the participation of:

- Astronaut Jorge Sotomayor from Nasa USA

Leadership Congress

- Dr. Ramón Ferreiro, Emeritus Professor Nova Southeastern University in Florida, USA

Active Citizenship for the Digital Village

MILSET EXPO-SCIENCE LATIN AMERICA

DEVELOP SCIENTIFIC COMMUNICATION SKILLS

Participants must include their ORCID ID in the registration form to link their research results and activities. ORCID is integrated into many systems used by publishers, funders, institutions, and other research-related services, such as identifying collaboration opportunities.

This iD must be considered in the article of your research project, so that after peer review it can be published in the indexed journals:

- FITOVIDA
- ALPHA CENTAURI
- Fondo editorial
- FEPOL

SCIENTIFIC PUBLICATIONS

AUTHOR GUIDELINES

ASSIGNMENT OF RIGHTS

PROJECTED ACADEMIC RESULTS

- Publication of a book chapter as a research outcome (with ISBN, DOI, editorial certification).
- Certificate of Presentation of an article to ESI AMLAT 2024 (for presenters) and its publication.

MILSET EXPO-SCIENCE LATIN AMERICA

PROJECT CATEGORIES:

- 1. BIOLOGICAL AND HEALTH SCIENCES**
- 2. PURE AND APPLIED SCIENCES**
- 3. ENVIRONMENT AND ECOSYSTEMS**
- 4. ENGINEERING, COMPUTER SCIENCE, AND ROBOTICS APPLICATIONS**
- 5. SOCIAL AND BEHAVIORAL SCIENCES**

A non-exhaustive list of subcategories has been added as an annex to the regulations to guide participants in identifying the category that best represents the field of specialization of the project. Some projects are difficult to categorize as they are interdisciplinary; the participant can choose the category that best fits the main theme of their project.

MILSET EXPO-SCIENCE LATIN AMERICA

Age of Participants

- Participants must be between 13 and 25 years old.
- A separate "Scientific Gangs" program is available for children aged 9-12.

EVENT VENUE: CLUB DE LA UNIÓN – HISTORIC CENTER OF LIMA

Location: Plaza de Armas de Lima
Dates: November 25-29, 2024

EXHIBITION HALL: CLUB DE LA UNION

FOOD: CLUB DE LA UNION

Main Dining Hall: Serving lunch and dinner to ESI AMLAT 2024 participants

HOTEL MAURY: THE OLDEST ON THE PACIFIC COAST

Hotel Maury: A Legacy of Hospitality in the Heart of Lima

- Standing as a testament to Lima's rich history and enduring charm, Hotel Maury proudly holds the title of the oldest hotel in Peru, with its nearly 200 years of existence. Founded in 1835 by French merchant Pedro Maury as a haven for weary travelers, its strategic location near the Plaza de Armas quickly propelled it to prominence.
- In 1954, Antonio Bergna acquired the hotel and embarked on an ambitious transformation, guided by architect Héctor Velarde and engineer Adolfo Carozzo, resulting in the magnificent five-story structure that stands today. Beyond its architectural splendor, Hotel Maury holds a special place in the hearts of Peruvians for its dedication to perfecting the quintessential Peruvian cocktail, the pisco sour, elevating it to the status of a national treasure.

GRAN HOTEL BOLÍVAR

Gran Hotel Bolívar: A Haven for Legends

In the heart of Lima, Peru, stands the Gran Hotel Bolívar, a sanctuary that has captivated luminaries and royalty for nearly a century.

Since its grand opening in 1924, the hotel has exuded an aura of timeless elegance, welcoming an illustrious clientele that includes legendary figures such as Mick Jagger, Richard Nixon, Ernest Hemingway, and Clark Gable.

MILSET EXPO-SCIENCE LATIN AMERICA

Non-Competitive Event

This event is non-competitive in nature. There are no prizes awarded to participants, and it does not directly grant accreditation for students to attend other events.

It does not involve project evaluation by judges. However, scientific guests are encouraged to engage participants in scientific conversations to provide constructive feedback and motivate participants to refine and expand their projects.
